

## BIOGRAPHY

### **YULDASHEV MUMINJON SHOKIRJONOVICH** **HONORARY MEMBER**

Philanthropist engaged in charity, financially supporting orphanages, nursing houses and the disabled people.

Yuldashev Muminjon Shokirjonovich was born on February 18, 1976 in the village of Log'on in the Fergana region of Uzbekistan in the family of a collective farmer. He graduated from secondary school No. 47 in 1993. In 2001 he finished his vocational education at the Avval College of Consumer Services. Later in 2009 he graduated from the Kyrgyz State Technical University, majoring in Economics and Business Management. He started his entrepreneurial activity in 2000 in Kuvasay as the head of a construction company.

Meanwhile, he focused on creating new jobs in rural areas, updating and expanding production, attracting foreign investment, installing modern technologies that meet international standards. During his entrepreneurial activity, he has established more than twenty new enterprises and created more than 5,000 jobs, half of which are for graduates of colleges and institutes in the region. Besides the construction companies, textile factories like JV BOXODIR LOGON TEKSTIL LLC and JV Fergana-Oseana LLC have been created and put into operation in the form of a cluster, which are engaged in from the cultivation of cotton till the manufacture of high quality ready garments.

In the enclave of Sokh, sewing enterprise "Sokh Namunasi" providing jobs for local women has been created on the basis of textile factories. "Arsif Libosi", is another enterprise in the Arsif village of Kuvasay district where over 300 young girls and woman are employed. In corporation with German company "Desma" he created the factory "VODIY SHOES" for the production of

high-quality shoes. In addition, enterprises for the production of reinforced concrete products, burnt bricks, polyethylene pipes of a wide range have been created. The design Institute "Royal Dizayn Loyiha", whose main activity is designing in the field of construction, has been established. Several entertainment centers for children and youth such as "Festival Centre" have been created in the city of Fergana. A kindergarten with the capacity of 150 children is successfully functioning.

Together with foreign investors, Mr. Yuldashev established the Madad Invest Bank, licensed by the Central Bank of the Republic of Uzbekistan. The bank is successfully operating in the financial market.

He played an important role in the development of agriculture in the region. An agricultural enterprise LLC "Logon Agrosanoat Lux" was established in the village of Log'on in Fergana district, on the basis of which a livestock farm was created. The farm has 500 heads of cattle as well as 300 imported Dutch cows, more than 1,000 sheep and 300 hectares of land in use. More than 3 tons of milk is produced per day, which is processed and sold to the population and enterprises of the region. Since today there is an acute issue with irrigation water in the village of Log'on more than 50 wells have been drilled and put into operation, a network of irrigation pipelines has been installed for watering more than 2,000 hectares of irrigated fields. 67 hectares of gardens with drip irrigation in the village of Pakana have been created on waterless non-irrigated lands. More than 35,000 seedlings were planted, such as apple, almond, peach and pear.

All the above-mentioned enterprises were created by the efforts of Yuldashev Muminjon Shokirjonovich who is a great philanthropist engaged in charity, financially supporting orphanages, nursing houses and disabled people. He often supports students from low-income families by paying tuition fees who are studying in universities of Uzbekistan and abroad.
